Good Afternoon Paul,

The Oxnard Union High School District has many capital improvement projects for the next 5 years, however, for Camarillo specifically, there is only one project we will be working on. It is the construction of a new bus barn on Mission Oaks-Adolfo Camarillo High School. We do not have plans or a schedule yet and only a tentative estimate of \$350,000.00. There are no other projects taking place within the City of Camarillo.

Thank you,
