## ACRONYMS

AB	Assembly Bill
CASp	Certified Access Specialist (Senate Bill 1186 Funding)
CDFW	California Department of Fish and Wildlife
CMAQ	Congestion Mitigation & Air Quality (Federal Funds)
CMP	Corrugated Metal Pipe
CRP	Carbon Reduction Program (Federal Funds)
FTA	Federal Transportation Administration (Federal Funds)
HIP	Highway Infrastructure Program (Federal Funds)
HVAC	Heating, Venting, and Air Conditioning
kWh	Kilowatt hour
LARWQCB	Los Angeles Regional Water Quality Control Board
LED	Light Emitting Diode
LMD	Landscape Maintenance District
LOSSAN	Los Angeles - San Diego - San Luis Obispo Rail Corridor Agency
MD	Maintenance District
MP	Master Plan
NB	Northbound
NPDES	National Pollutant Discharge Elimination Systems
OSHA	Occupational Safety and Health Administration
PCI	Pavement Condition Index
PEG	Public, Education & Government (Access Channels)
PM	Preventative Maintenance
PMP	Pavement Management Plan
Prop	Proposition
RO	Reverse Osmosis
ROW	Right of Way
SB	Southbound
SB1	Senate Bill 1
SCADA	Supervisory Control and Data Acquisition
SCE	Southern California Edison
SIBA	Springville Interchange Benefit Area
SSMP	Sewer System Management Plan
SWRCB	State Water Resources Control Board
TDA	State of California Transportation Development Act
TDM	Transportation Demand Management
TMDL	Total Maximum Daily Load
TMF	Traffic Mitigation Fees
USBR	United States Bureau of Reclamation (Federal Funds)
VFD	Variable Frequency Drive
VCTC	Ventura County Transportation Commission
VCWPD	Ventura County Watershed Protection District
WQ	Water Quality
WRP	Water Reclamation Plant

Project	Camarillo Train Station Undercrossing			
Category	Transportation	Status	Ongoing	Account # 410-8510-485
Department	Public Works	Phase	Conceptual Design	Project # ST-14-05
Location	Camarillo Train Station Undercrossing			
Description	Construct pedestrian undercrossing at Camarillo Train Station to improve access between the two parking lots and improve train operations by utilizing both platforms. The project was awarded grant funds and the City is pursuing additional grant funds from LOSSAN in coordination with VCTC.			
Objective	Improve pedestrian safety and access.

Project	Pleasant Valley Road Southbound Off-Ramp Improvements			
Category	Transportation	Status	Ongoing	Account # 410-8510-485
Department	Public Works	Phase	Conceptual Design	Project # ST-5007
Location	Santa Rosa/Pleasant Valley Interchange - Southwest Quadrant			
Description	Widen the southbound US 101 freeway off-ramp to Pleasant Valley Road to two lanes. Design may impact the southbound Pleasant Valley Road on-ramp to the US 101 freeway. The City received developer cash out funds for Tract 5350 to complete the proposed improvements. (Improvements are in the Southwest portion of the interchange)			
Objective	Improve traffic flow.

Project	Springville Bike Path Phase 2				
Category	Transportation	Status	Ongoing	Account #	410-8510-485
Department	Public Works	Phase	Conceptual Design	Project #	ST-5103
Location	Adjacent to the northbound US 101 freeway between Spring Oak Road and Springville Drive				
Description	Construct bike path from Spring Oak Road to Springville Drive approximately one mile. This project will be coordinated with the development of Tract 5671-2 which is conditioned to construct Phase 1 of the bike path from Springville Drive to Central Avenue.				
Objective	Implementation of Bikeway Master Plan and the General Plan Circulation Element.

Project	Utility Undergrounding Project				
Category	Transportation	Status	Ongoing	Account #	410-8510-485
Department	Public Works	Phase	Final Design	Project #	ST-12-01
Location	Las Posas Road from Antonio Avenue to Marco Drive				
Description	Utility undergrounding of overhead utilities along Las Posas Road from Antonio Avenue to Marco Drive. Construction costs are anticipated to be \$1,800,000. This project is directly managed, designed, constructed and paid for by SCE using Rule 20A funds. The City's cost for the project not covered by Rule 20A funds are shown in the table below.				
Objective	Underground aerial utilities.

Project	Advanced Metering Infrastructure				
Category	Water	Status	Ongoing	Account #	863-8716-487
Department	Public Works/Water Division	Phase	Final Design	Project #	WT-5080
Location	Various City-Wide Locations				
Description	Replacement of all existing water meters (over 14,100) with new water meters, meter boxes, lids, and network and communication equipment to establish Advanced Metering Infrastructure (AMI). After AMI is completed, meter technician staff will increase efforts on customer service, water conservation, and education. Staff is currently pursuing grant funding for the project.				
Objective	Water accounting and real time information.

Project	Charter Oak Pump Station Nos. 1 & 2			
Category	Water	Status	Ongoing	Account # 863-8710-487
Department	Public Works/Water Division	Phase	Conceptual Design	Project # WT-5081
Location	TBD			
Description	Construct pump stations near two existing imported water connections to utilize more pumped local groundwater and reduce imported water purchases.			
Objective	Improve system by reducing reliance on imported water.			

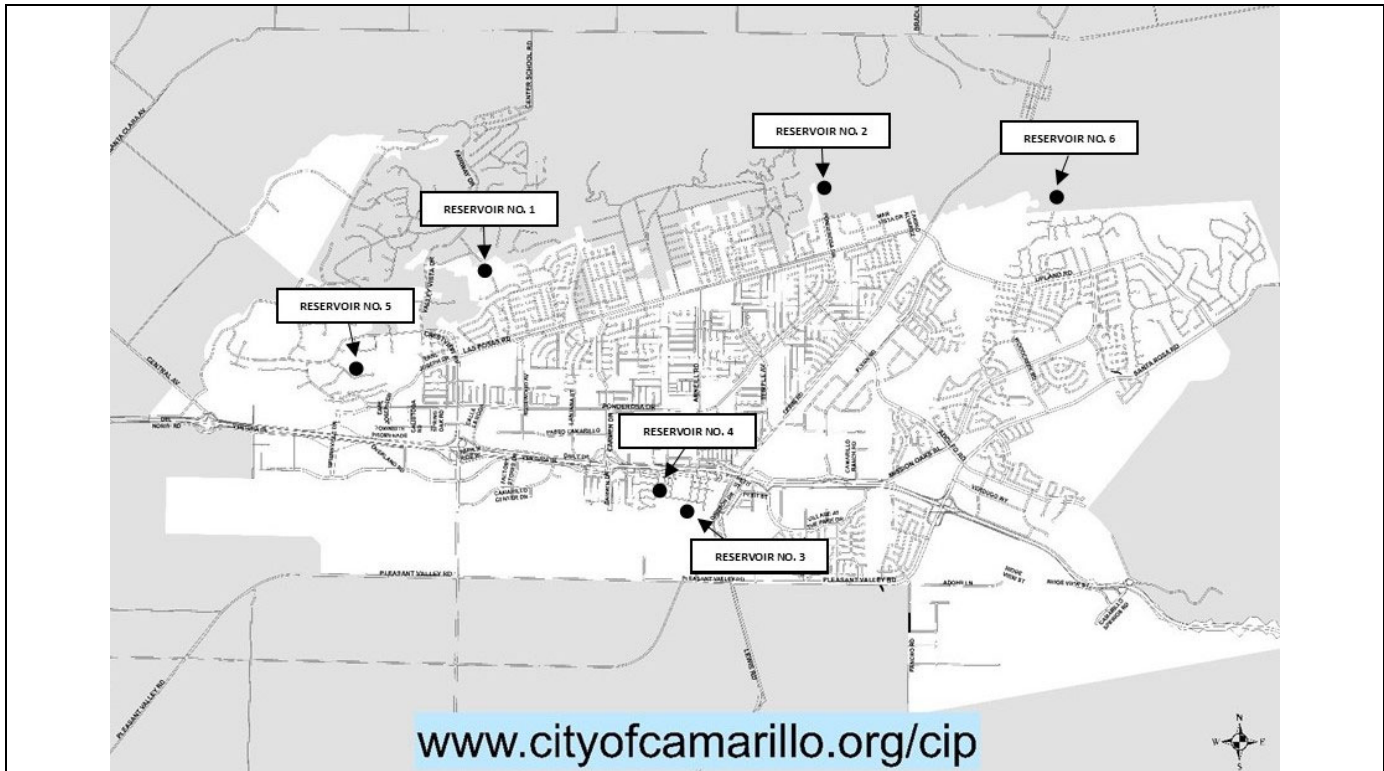

Cost Account	Previous	Current FY 22-23	Year 1 FY 23-24	Year 2 FY 24-25	Year 3 FY 25-26	Year 4 FY 26-27	Year 5 FY 27-28	Project Total	Future 6-20 Years

Project	North Pleasant Valley Groundwater Desalter			
Category	Water	Status	Ongoing	Account # 8710/8716-487
Department	Public Works/Water Division	Phase	Conceptual Design	Project # WT-11-01
Location	Intersection of Lewis Road and Las Posas Road			
Description	Construction of a groundwater treatment plant along with associated pipelines, wells, and other supporting improvements for the treatment of brackish groundwater to produce drinking water for Camarillo residents, improve groundwater conditions in the basin, and offset imported water purchases. The Desalter facility is substantially complete and remaining work includes the construction of the standby well and infiltration basin.			
Objective	Decrease reliance on imported water and maximize groundwater resources. Compliance with Calleguas Creek 2008 Salts TMDL (reduce salts accumulation in watershed).

Project	Chemical System Improvements				
Category	Sanitary	Status	Ongoing	Account #	873-8816-488
Department	Public Works/Camarillo Sanitary District	Phase	Construction	Project #	SS-5078
Location	Water Reclamation Plant (WRP)				
Description	This project includes improvements to existing chemical treatment systems and replacement of sludge pumps at the WRP with the goal of implementing high priority improvements needed for WRP operations and to increase reliability. Phase I includes improvements to chemical systems, including pumps, equipment, and piping. Phase 2 includes replacement of sludge pumps and other related equipment.				
Objective	Upgrade system and improve reliability.

Project	Reclaimed Water Storage Reservoir				
Category	Sanitary	Status	Ongoing	Account #	871-8810-488
Department	Public Works/Camarillo Sanitary District	Phase	Environmental Review	Project #	WT-14-03
Location	Water Reclamation Plant (WRP)				
Description	Construction of a new 1.0 million gallon reclaimed water storage tank and improvements to the reclaimed water pump station at the water reclamation plant for the purpose of improving reclaimed water delivery during periods of high customer demand. The project will be coordinated with the WRP Upgrades Phase I (SS-5118) and Phase II (SS-5119). Staff will pursue grant funding for the project.				
Objective	Increase water supply reliability of the reclaimed water distribution system.

Project	Sewer Improvements per SSMP SS5043				
Category	Sanitary	Status	Ongoing	Account #	873-8810-488
Department	Public Works/Camarillo Sanitary District	Phase	Final Design	Project #	SS-5043
Location	Various				
Description	Rehabilitate sewer facilities per SSMP and Wastewater System Master Plan recommendations. Improvements may include lining sewer, replacement of portions of sewer, and manhole rehabilitation, depending on the condition of the collection system infrastructure. Conditions are assessed by ongoing inspections.				
Objective	Upgrade system and improve safety.

Project	Wastewater System Generator Replacement			
Category	Sanitary	Status	Ongoing	Account # 873-8810-488
Department	Public Works/Camarillo Sanitary District	Phase	Conceptual Design	Project # SS-5120
Location	Water Reclamation Plant (WRP) and Pump Stations			
Description	Replace generators at the WRP and Pump Stations to provide standby power in case of an emergency or power loss. This project includes the cost to replace generators which is not included in the Standby Power- City and CSD Facilities Project (CH-5067). Staff will pursue grant funding opportunities for the project.			
Objective	Maintain service during power outages.

Project	Water Reclamation Plant Upgrades- Phase I				
Category	Sanitary	Status	Ongoing	Account #	873-8810-488
Department	Public Works/Camarillo Sanitary District	Phase	Conceptual Design	Project #	SS-5118
Location	Water Reclamation Plant (WRP)				
Description	Rehabilitate or replace solids processes and related systems that have a low remaining useful life to ensure continued plant operation including the digester and solids processing equipment. Final design will determine actual improvements required.				
Objective	Upgrade treatment system, improve reliability and maintain regulatory compliance as recommended by the Wastewater System Master Plan.

## Storm Drainage

### 5-Year Funding by Source

Project	Calle La Palmera Drainage Improvements			
Category	Storm Drainage	Status	Ongoing	Account # 410-8510-485
Department	Public Works	Phase	Conceptual Design	Project # SD-5030
Location	Ponderosa Drive at Calle La Palmera			
Description	Replace the existing ditch at the southerly terminus of Calle La Palmera, north of Ponderosa Drive, with an underground pipeline. The project will be coordinated with the Las Posas Road Dual Left at Ponderosa project (ST-5004).			
Objective	Maintenance and facility improvements.

Project	Calleguas Creek Lynnwood Slope Restoration				
Category	Storm Drainage	Status	Ongoing	Account #	221-3311-485
Department	Public Works	Phase	Conceptual Design	Project #	SD-16-01
Location	East bank of Calleguas Creek south of Upland Road bridge				
Description	Restore and protect approximately 1,000 feet of eroded creek bank along the east side of Calleguas Creek downstream of Upland Road bridge and the Ventura County Watershed Protection District mitigation project area. Mitigation required by the California Department of Fish and Wildlife (CDFW).				
Objective	Protect terrace drains and access road, and reduce erosion that impacts water quality in Calleguas Creek.

City of Camarillo Capital Improvement Program  
Municipal Stormwater NPDES Permit Compliance

SD-5046

Project	Municipal Stormwater NPDES Permit Compliance				
Category	Storm Drainage	Status	Ongoing	Account #	410-8510-485
Department	Public Works	Phase	Conceptual Design	Project #	SD-5046
Location	Various				
Description	Perform feasibility study and concept design of projects identified in the Watershed Management Program the City and other permittees created to comply with requirements in the 2021 NPDES Permit for Municipal Separate Storm Sewer Systems (2021 Regional Stormwater Permit). The City's participation in the Watershed Management Program in response to the 2021 Regional Stormwater Permit is further described in Resolution No. 2021-122.				
Objective	Meet regulatory requirements.				

Cost Account	Previous	Current FY 22-23	Year 1 FY 23-24	Year 2 FY 24-25	Year 3 FY 25-26	Year 4 FY 26-27	Year 5 FY 27-28	Project Total	Future 6-20 Years

Project	Storm Drain Rehabilitation				
Category	Storm Drainage	Status	Ongoing	Account #	410-8510-485
Department	Public Works	Phase	Final Design	Project #	SD-5115
Location	Various				
Description	Perform city-wide assessment of the CMP storm drain network. Rehabilitate damaged storm drain pipelines and catch basins at various locations, including City Hall and Las Posas Road, west of Arneill Road. Additional locations may be added following the assessment.				
Objective	Facility improvement to restore proper drainage.				

Cost Account		Previous	Current FY 22-23	Year 1 FY 23-24	Year 2 FY 24-25	Year 3 FY 25-26	Year 4 FY 26-27	Year 5 FY 27-28	Project Total	Future 6-20 Years

Project	Standby Power - City and CSD Facilities			
Category	Buildings and Grounds	Status	Ongoing	Account # 8610/8611-486
Department	Public Works	Phase	Conceptual Design	Project # CH-5067
Location	Various City and CSD Facilities			
Description	Install new hybrid microgrid combining solar, storage, and diesel generation to offset utility costs and provide standby power in case of an emergency or power loss at City and CSD facilities. Generators at the WRP will be replaced as part of the Wastewater System Generator Replacement project (SS-5120). Staff will pursue grant funding or a Power Purchase Agreement that will determine the exact project scope at each facility.			
Objective	Offset utility costs and maintain service during power outages.
